Title
Border Tour & Dinner

Summary

On January 28, 2021, the Pima and Santa Cruz NRCDs hosted a border tour at Dan Bell's ranch and dinner at the Bell Ranch. During the tour, the delegation saw the unfinished border wall gaps, unfinished roads, idled construction materials and equipment, inadequate border fencing (4-strand barb wire), and the rough, mountainous terrain. After the tour, the delegation attended a BBQ dinner at the Bell ranch. During the dinner, Jim Chilton & Cindy Coping (Pima NRCD) and Dan Bell and Bill Schock (Santa Cruz NRCD) gave presentations. They talked about the challenges living in the border area. Overall, ranchers along the U.S.-Mexico border say they are concerned for their personal safety, environmental damage, and the safety of their property.

Importance

During the tour, the delegation saw the unfinished border wall gaps, unfinished roads, idled construction materials and equipment, inadequate border fencing (4-strand barb wire), and the rough, mountainous terrain.

Title
Project WET ONLINE

Summary
177 students and 7 teachers (Rio Rico - Nogales) learned about Arizona's water resources and water in the earth system. They learned about groundwater (system), the water cycle, and water conservation technology.

Importance
Driven by emerging water issues, changing educational priorities, new science discoveries and breakthroughs in how water is used, managed and protected, and the availability of information technology and social connectivity, the new program encompasses a whole new world of water education that includes a Portal, Action Education, a Reading Corner, and activities supported by our teaching methodology.

Key Partners
University of Arizona Cooperative Extension (Project WET), Rio Rico & Nogales school districts and Santa Fe Ranch Foundation.
