2024 Natural Resource Priority Projects or District Programs

Natural Resource Projects are those intended to address specific, identified natural resource concerns in the district area. This includes cost-share, grant funded, or/and collaborative programs.

District Programs are those supporting basic district operations, education and outreach with landowners, engagement with other processes and entities to advance the work of the district, etc. This includes cost-share, grant funded, or/and collaborative programs.

For questions on Projects or Programs, review the Frequently Asked Guide. You can add as many projects or programs as you like by clicking Add additional project/program at the bottom.

Note: These projects/programs can address the priorities listed above.

*** (required) What type is this?**

- Natural Resource Project
 District Program

* (required) What is the title for this project/program?

Rangeland Monitoring

* (required) Describe in two to three sentences, the goals for this project/program area

The Santa Cruz NRCD provides monitoring on 20 vegetative transects yearly on District ranches. The focus is on National Forest grazing permittees and the data gathered can be used to defend renewal of grazing permits against actions of litigious environment groups which have a goal of removing livestock grazing from rangeland.

i.e. Project: Reduce soil loss and improve water quality in the Little Colorado River watershed by November 2023. Program: Facilitate a workshop on range land improvements.

* (required) Describe the project/program specific measurable objectives

Fund and monitor 25 transects

i.e. Project: Restore 11 acres in the Little Colorado River watershed by November 2023. Program: Facilitate a total of 3 workshops in the District by November 2023.
